REASONS FOR ALLOWANCE

Claims 1, 5 and 9-11 (renumbered as 1-5) are allowed.

The following is an examiner's statement of reasons for allowance:

The closest available prior arts, Hussey [USP 6,230,156 B1], Harvey [Internet Explorer 4 for Windows for Dummies Quick Reference] and Adams et al. [USP 6,334,145 B1], also teach a computer method and program for processing user requests clients to submit requests to a server via electronic mail, the results of which are typically viewed at a later time. However, Hussey, Harvey and Adams fail to teach or suggest the steps of *receiving a number representative of a depth in which the depth is the number of successive links to another Web page as accessed through the at least one Web page; and bundling a copy of each of the successive links between the other Web page and the at least one Web page into the e-mail message* as in claims 1 and 5. Therefore, the invention is allowable over the prior arts including the providing steps as indicated above.
